

# BIOGRAPHY

**Tim Owen,**  
**Assistant to the CFO - Policy Lead**  
**MSFC/RS01 Office of the Chief Financial Officer**  
**NASA MSFC**

Tim Owen has worked 15 years for NASA primarily at Marshall Space Flight Center (MSFC). In 1990 he rotated to Kennedy Space Center (KSC) and performed testing and integration checkout for Spacelab experiments. For eight years he worked as a flight controller for Shuttle/Spacelab missions at MSFC. In 1997, he spent a year at NASA HQ as part of the Professional Development Program (PDP), in the Office of Biological and Physical Research serving as the ISS Utilization Manager. After returning to MSFC, he began his project manager career where he managed the MSFC Telescience Support Center (a science operations command and control facility), the DCPCG ISS experiment, and most recently the MSFC Expendable Launch Vehicle (ELV) project providing support to the Launch Services Program at KSC. He has an Electrical Engineering degree from Auburn University. Mr. Owen has just recently received Level 3 Certification in the Project Management Development Process (PMDP). He has recently completed a 1-year PMDP development assignment to the Office of the Chief Financial Officer (CFO) at NASA Headquarters serving as the Agency Full Cost Policy Lead directly supporting the Deputy CFO for Policy. Mr. Owen has returned to MSFC and is now working for the MSFC CFO and Agency CFO as the Full Cost Policy and Training Lead.
